To Whom It May Concern (Charitable & Business Communities):

It is our pleasure to highly recommend Moscow Ballet to the charitable and business communities. For the past five years Moscow Ballet successfully helped us fundraise towards a new facility for Recovery Acres. We successfully raised sufficient funds from Moscow Ballet's performances and other sources to break ground for a new facility which will cost approximately twenty million dollars. Moscow Ballet increased the prestige visibility and prominence of Recover Acres substantially.

Each year Moscow Ballet presented a new major Russian ballet. Moscow Ballet presents annually between twelve to thirty two performances nationwide in Canada. Moscow Ballet has presented *Swan Lake*, *Cinderella*, *Sleeping Beauty*, *Great Russian Nutcracker* and in 2011 Moscow Ballet will premiered the new world class *Romeo and Juliet!*

Moscow Ballet innovated our fundraising initiatives by adding a visual arts component. Starting in 2010 Moscow Ballet provided original ballet paintings for our VIP patrons.

Moscow Ballet has and continues to provide first class professional management of its tours in Canada under our management from British Columbia's Vancouver to Alberta's, Edmonton and Calgary (our headquarters) to Saskatchewan's, Saskatoon and Regina to Manitoba's, Winnipeg's, Manitoba to Quebec's, Montreal and Ontario's, Toronto.

For the past thirty-five years Recovery Acres has provided western Canada and its oil industry in Calgary and Fort McMurray major treatment facilities for adult men. Our unique treatment methodology has benefited thousands of former patients. Our recovery rate is a record seventy percent positive. That is a record. Together with Moscow Ballet or separate, Recovery Acres would be honored to present and/or consult and advise, if you wish, guidelines on how to develop a similar treatment center.

Moscow Ballet will provide any community a turnkey, world class ballet company directly tied to a "cause-related" on-going performance and fundraising campaign that will responsibly answer and provide both world class artistic performances as well as human services fundraising assets. This new charitable fundraising and business development will provide a new twenty-first century cutting edge charitable and business partnership.

Respectfully,

Dr. John O'Reilly
