

THE WHITE HOUSE

May 30, 1986

Dear Cynthia:

I am delighted to extend my warmest greetings to you as you continue your "Celebration Tour." It is my pleasure to serve as Honorary Chairman of this benefit to fight drug and alcohol abuse among our young people.

As you know, substance abuse, especially as it affects our youth today has reached epidemic proportions. It is even threatening to destroy a whole generation of our young people. For that reason, it is up to us to do what we can, each in our own environment, to help stem the tide.

You have my warmest thanks for all you are doing, and my best wishes for a most successful tour.

Sincerely,

George Reagan
